

Reference letter.

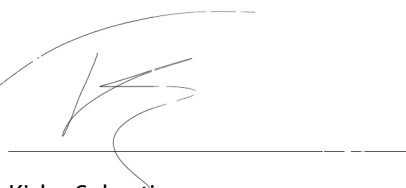

With this letter we would like to express our gratitude to the PureVision team for the development of the website and the interface of the mobile application.

We worked with different studios and the experience was not always good. But this company coped with the tasks assigned to them and all our wishes were taken into account.

A distinctive feature of working with this studio is an adequate assessment and work on time, the team's desire to make a good product, high professionalism and organization of the company's employees.

We recommend PureVision studio for cooperation.

Sincerely,

Kishu Sebastien

General producer — A persona
